MEMORANDUM FOR: [REDACTED] BMSD/SI  
THROUGH: Chief, Ballistic Missiles & Space  
Division/SI  
SUBJECT: Article for Studies in Intelligence

25X1

1. I should like to invite you to prepare an article for the Studies in Intelligence on the thrilling saga of [REDACTED]. You are free to use diagrams and photographs extensively and as much technical language as is necessary to tell the tale of how we progressively unraveled this very interesting capability. The security level is Secret/NoFORN and I think that this will pose no basic problem for you. You may find that it is proper and desirable to associate with you other people who have contributed to this field and you should feel free to do so.

25X1

2. We would like this article as soon as possible, but really can use it in any of the four issues during the next calendar year. When you have framed your plans, let me know so we can work it into the schedule.
